SUBJ: NH SIP & SI Contractor Assignments

FROM: Don Smith, NH SAM

TO: File

NH has been conducting a site-by-site review to determine if a CERCLIS site should receive a comfort letter, a low priority archive or other actions. Based upon that effort, I have received two letters from Charlie Berube, NH DES, regarding currently assigned SIP and future SI work in NH.

The first letter, dated July 31, 1997, identifies currently assigned SIPs that may not need additional work and those that should continue. The list of sites is given below. I have agreed that we should temporarily suspend contractor work at 23 SIPs and continue work at seven SIPs. The suspension will last until mid-September. During the suspension, NH will be preparing site specific low priority archive request letters. As each letter is received and reviewed, a decision will be made to either cancel or continue the SIP activity.

The second letter, dated August 5, 1997, contains a list of new SI assignment that can be made to partially replace the canceled SIPs.

**SIP ACTIVITY TO BE SUSPENDED - 23 sites**

Andover	Andover Landfill	NHD981068950	TDD 97-03-0014
Berlin	Berlin Landfill	NHD980416978	TDD 97-03-0015
Bradford	Naughton Landfill	NHD064425234	TDD 97-03-0017
